PROJECTS

Website SEO and Technical Audit – Satyajan Products Page | Oct 2026

- Audited the page for technical accessibility, indexing, on-page SEO, performance, links and redirects, and structured data.
- Reviewed title and heading structure, canonical directives, robots.txt, sitemap, image optimization, and broken links.
- Followed an evidence-based approach, flagging results that could not be conclusively measured for verification instead of making unsupported claims.
- Documented findings and improvement recommendations in a structured report.
